1337 Coding school

2021

PROFILE

I am a dedicated Frontend Engineer specializing in ReactJS, Next.js, Tailwind CSS, TanStack Query, and Redux. With a strong passion for web development, I am constantly expanding my skill set and currently delving into the world of Web3. My experience allows me to create dynamic, responsive, and efficient web applications that meet modern standards.

EXPERIENCE

SOFTWARE ENGINEER

at LendStack

Nov 2023 - Jul 2024 · 9 months · Full-time

- Work with Nextjs , TailwindCss, React query, and Typescript to build a micro-finance website where users can manage their applications, create new ones, and go through steps to take a loan.
- chat with AI (GPT4)
- Internationalization (i18n react)
- KYC (Regula provides identity verification solutions)
- E-signature (DAMAN-SIGN e-signature provider)
- Agile methodologies, utilizing tools like Jira to manage projects and ensure continuous improvement.
